

LGBTQ+ Clinical Support Services

Fall River Family Services Association (FSA) has developed a specialty program to provide therapeutic services to the older adult LGBTQ+ population through our Behavioral Health Center.

Services are provided in person or by Zoom.

Offerings include individual therapy, a family and friends weekly support group, a monthly drop-in group for the older LGBTQ+ adult, and training sessions for community agencies to assist them in serving this population.

All services are provided by clinicians who have an affirmative approach to providing services to members of the older LGBTQ+ community.

If interested in receiving services or for additional information please contact Sue Roque at 508-678-7542.

This program is funded in part by a grant from Bristol Elder Services, Inc. through a contract with the Massachusetts Executive Office of Elder Affairs.
